MEMORANDUM FOR THE RECORD

SUBJECT: Conversation with Dr. Brzezinski,
7 December 1977

1. Discussed evidence of possible leak of security information. Agreed that Brzezinski would set up a meeting between the Attorney General, himself, and myself to discuss this.

25X1 2. Talked about the moves we have made towards [redacted] 25X1
[redacted] I pointed out that this idea has not been staffed out and appears to me not to be sound. I pointed out that the DCI was not brought into this move at all, even though it has a major impact on his programs and budget. Brzezinski agreed that this was an oversight.

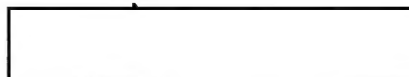

[redacted] 25X1
4. Talked about Brzezinski coming out to the Agency and talking to a group of our people about his concepts of US foreign policy. It's up to me to set the time and place for doing that. 25X1
[redacted]

6. I delivered a copy of the budget with my forwarding letter to the President. I said it was my understanding that letters I address to the President would go to him, whereas letters I address to the National Security Council Advisor suggesting they go to the President would be a matter for his judgment. I didn't know whether this letter had in fact gone in because OMB was unable to tell me. I requested that it go in. Brzezinski preferred to take the letter itself with the enclosures rather than the entire budget book.
